SOVEREIGN
SOUL

WELCOME TO THE SOVEREIGN SOUL NETWORK

Ever have the feeling that modern society life just 'isn't right'? Do you see more than just the 9-5 rat race, more than 'success/make money'. Something existential? Something more important?

We're all part of communities where numbers go up, noise goes up, signal goes down, quality goes down. You go from knowing everyone and feeling connected, to not having a clue who is who. You lose trust.

So who do you want to DO life with?

Where do you find Sovereignty with Soul?

Join The Sovereign Soul Network:

- Curated and held by Richard and Daniel; decades in business, finance & crypto. Running communities with heart for 5 years
- A small, curated community space where membership (\$2350 per year) ensures skin in the game. Large enough for the best and balanced thinking. Small enough to know members well and feel part of something bigger
- Monthly calls on specific topics, coaching, expert speakers and seriously vetted passive income projects
- Designed to help you Thrive

SOVEREIGN
SOUL

WHY?

Hello. We're Daniel and Richard. We found each other as entrepreneurs with curious minds and complementary skill sets. At the bottom of a Sake bottle in Tokyo.

We shared a nagging feeling modern life isn't 'right'. The game feels rigged in some way just beyond our control. Stuck in a cycle and mindset where there is never quite enough. Time, money, energy, resources.

***“WHenever you find yourself on the side of the majority,
it is time to reform (or pause and reflect)” - Mark Twain***

We looked to counter culture alternatives but they saw 'dirty money', wealth as part of the problem.

But we both agree money is just a tool to create options, where life changing choices can be made to create an opportunity to decouple from what modern life 'is'. As our awareness expanded together, we sought richer conversations. People who thought the same - they were out there weren't they?

To find out, we started our community with a handful of like minded folks. It lit us up and we wanted more. Better questions, seeking better answers. These questions and answers helped remove our limitations and set us on our individual paths: Daniel & Kristina surrendering to life in Mexico while me and my wife Kerry and two kids are unlearning our way through the continents. We've spent time together in some amazing places.

But it was as part of a community we broke a chain from the 'game'. We let go of what we 'should' and began to expand into what we 'could'. Simplify to amplify. We gathered more folks walking a similar path. We found ways of making money we never imagined possible. Opportunities were everywhere. For greater levels of wealth, health and consciousness. The conversations were happening, we were in a greater sense of flow.

Underpinned by all of this was our desire for freedom, not just for us but for us all as a collective. That is where the power is.

WHY?

***“ YOU NEVER CHANGE THINGS BY FIGHTING THE EXISTING REALITY.
TO CHANGE SOMETHING, BUILD A NEW MODEL THAT MAKES
THE EXISTING MODEL OBSOLETE ” - Buckminster Fuller***

For us learning about Bitcoin as a new model gave us a window into the future we seek with freedom at its core. A new paradigm of money, decentralisation and sovereignty.

Even if it doesn't succeed, Bitcoin has shone a light into the dark recesses of modern society. Awareness, sense making and the power of community means we all have a shot at Sovereignty.

So we created Sovereign Soul. To open up a space for us to learn together, to explore, to play and to come together in community. To support each other as we navigate our own Sovereign Pathways.

For us to transition into this new paradigm solid, grounded and prepared for all that it means to be sovereign. To be in ownership of yourself fully, wholly and completely. With your heart firmly in place to be a force for good and a beacon of light for those who need it most.

We all have our stories about how we got here. We invite you to write a new story as a Sovereign Soul member. If our plans come together we will share those stories over a cocktail at sunset of a Sovereign life well lived.

Richard & Daniel

PROBLEM

Communities can grow fast and lose their core principles - without care their true signal is lost in the noise. The community forgets its original values and intention; due diligence drops, integrity dwindles. Trust, connection and your ability to contribute to your community fades. You no longer “know” the group - it’s too big, too diverse, too fragmented,

It’s painful when communities lose their way as they struggle to keep their core principles and purpose alive. As the value drops and the noise increases, you retract and begin the search again for ‘your’ community. We’re used to online communities being ‘free’. With no skin in the game, there’s no personal responsibility or group leadership to curate and care for the community, and to facilitate its success.

Exploring opportunities to create wealth with a healthy mind, body and spirit in spite of *the volatility in the world will be critical in the next few years.*

Information is not the problem, we’ve never had access to so much. It’s how communities lead and collaborate to cut through the noise for the signal that matters.

If we seek sovereignty we need a space to learn, earn, share, give and receive. Few communities exist to collectively sense-make together while navigating personal and collective sovereignty.

Even fewer exist with purpose driven members.

It is said you are the product of the 5 people you spend most time with.

So who do you want to DO life with?

Where do you find Sovereignty with Soul?

PRODUCT

Sovereign Soul Network is a community with a Soul Purpose.

It's a paid space, where membership means we all have skin in the game. A collaborative community supporting each other to Unlearn and Relearn, to pivot with purpose to ensure we do not fall backwards on our path to Sovereignty. A space with high trust, integrity and focus where radical responsibility is encouraged.

Whilst research shows 150 is the optimal size of a community to create value, trust, and collective growth, SSN is a curated online community capped at a maximum of 99 like-minded members seeking their people to do life with because we felt 150 was just a bit too many people to really know.

Ninety-nine allows for a third to disappear and go through lives issues that we all encounter from time to time, leaving 66 to carry on moving forward, with the third knowing they can return to a safe community who will welcome them back into the fold at any time.

Members will be committed and serious about their own personal sovereignty in finances, life and purpose.

The FinSov pathway is a proven model underpinning the community direction. You will discover exactly where you are on your path as we move as a group on our individual journey from Striving to Thriving financially. In doing so we create the independent space in our lives to grow in health & wealth, spirit & soul.

You'll learn from those who have accomplished what you seek with the tools and strategies that are proven to work, through monthly facilitated calls, coaching, learning, membership masterminds and the collective hive mind bringing opportunities for wealth, health and soulful growth. Individual and Community Sovereignty, with Soul.

A platform where questions are asked, answers found and stored so we're building a useful repository of our best thinking.

Where noise is reduced and signal is focussed. Access to resources that support your next steps on your sovereign pathway.

As as a member you will contribute to a vision to expand into community live events, You'll help the community to give back to projects across the world we can purposefully help.

As The paradigm shifts, Sovereign Soul will evolve.

SOVEREIGN
SOUL

FinSov PATHWAY

Sovereign Soul Network focuses on moving from Strive to Thrive

PROMISE

A community promising to hold the space for true growth of wealth, health and life, filling that void we all feel.

A community large enough to have varied views to benefit from the best and balanced thinking but small enough you can get to know members well and feel part of something bigger.

Everyone is encouraged to participate, to give as much as receive, as we all learn from each other.

Supporting you on your own FinSov journey, integrally held with and curated by Daniel and Richard.

***“YOU NEVER CHANGE THINGS BY
FIGHTING THE EXISTING REALITY.***

***TO CHANGE SOMETHING, BUILD
A NEW MODEL THAT MAKES
THE EXISTING MODEL OBSOLETE”***

- Buckminster Fuller

PRICE

True community is a commitment.
SSN membership works on a 12 month minimum.

Conviction. Collaboration. Contribution. Connection.
This is the value of a strong community.
So, we ask for a commitment to the community you want to be part of, for the long term.

\$2350 USD for the year

Both of us agreed that the best deal should always be for the members who have been here from the start / longest
And so we agreed a reward for the founding members who put their trust with us 🙏
This price will remain for the DURATION of the membership for the first 30 members.

Beyond that, the standard community membership will change each year as the value offered (and inflation) increases.

PROOF

SOVEREIGN
SOUL

Between them Richard and Daniel have over 50 years of business experience, 24 years in Financial sovereignty and 14 years in crypto, they have been running the Future Leaders Today group for over 2 years having held well over 200 hours of live group calls in safe spaces and courses to directly help people in their financial and personal life journey.

I trust Daniel and Richard for their level of knowledge, passion for their subject, their honesty about what they do and don't know, their non-stop learning (in theory and practice), and their genuine willingness to help people make a difference in their lives.

12:21

When I first joined Future Leaders I didn't know ANYTHING about crypto. Richard and Daniel's calls each week changed my thinking, gave me their views and kept me in check while being super patient! Today I'm in a very different place financially and with my outlook on life is changed forever.

12:22

A year and a half ago I was unsure how I would make ends meet for the rest of my life, therefore I put most of my life goals on hold and worried about how other family members would make ends meet. I now feel quietly confident that if I continue to act wisely and learn from trusted sources that there's a high chance I'll be able to achieve many of my life and lifestyle goals, support family members in need and have sufficient financial resources to make better life choices for myself, humanity and the planet.

12:20

WHAT TO EXPECT: SESSIONS

TOWN HALL CALL A monthly community call led by Daniel and Richard with open discussion either via community input prior to calls or themed according to current affairs, world events, threats, opportunities curated by group sentiment.

STRIVE SESSIONS Taking you from Strive to Thrive of the FinSov Path. Sovereign Soul Network is focused on supporting people through stages 4,5 and 6 reaching a point of financial sovereignty where you can enter THRIVE and your cash generating assets provide everything you need in life to lead more independent and meaningful lives. Strive sessions will cover investing models, tax, tracking, privacy, security and tech. Balancing wealth with health of mind, body and soul to grow into a space of wisdom and fearlessness.

THRIVE SESSIONS Each of the 3 tiers of the Fin Sov pathway literally “think” differently. Thrive sessions are our most expansive calls, with access to high level interviews and conversations to bring you into the Thrive mind thinking. Access to leaders who are at Thrive level means we all learn from their example and experience. Members have exclusive access to discounts and opportunities from Thrive leaders.

HIVE MASTERMINDS Once you know where you are on the Pathway, you have some next steps to take. These steps are best taken with people at similar stages. Like minded people solving problems together, through the power of the group, or Hive Mind. Each cluster is guided once a month to share wins, problem solve challenges, build relationships and stay connected.

GROUP COACHING This is still unconfirmed, as want to deliver whole SSN value first. Richard and Daniel will run a monthly call for people at similar stages of the FinSov pathway to specifically address what is most important to you. Max per call 15. These are more personalised and might also be provided as part of the thrive sessions for people to listen back to. We have found GREAT value from watching other groups coaching calls along our journey.

ALL CALLS WILL BE RECORDED FOR YOU TO ATTEND AS SUITS YOU

WHAT TO EXPECT

COMPASS PACK Receive the Sovereign Soul compass pack to find your place on your financial and personal sovereign path, and head to your true north.

WELCOME CALL Intro and orientation 1:3 call to clarify your true north, cut the noise to focus on the next steps and how to maximise your participation in Sovereign Soul.

NO REPEAT QUESTIONS Sovereignty comes with radical self responsibility. A platform to hold the videos and text responses to all those questions we ask and want the answer for. Membership to the Sovereign Soul Network vault of resources.

COMMUNITY It's an overused buzzword. But we've all experienced the power that is held in a community. A group of people is just that, a group of people. A community is connected together, who can understand each other enough to call upon them for their skills in time of need, who share a commonality that runs through them all. Our aim is to facilitate spaces, to naturally encourage the learning of one another, to build trust organically as we grow. Communities contain answers to all you need and trust comes from knowing the community. To facilitate community conversations, some calls will be broken up into groups so you have time to actually get to know other members and encouraged to do so.

TELEGRAM CHAT Until it isn't, TG is still the best option for rapid chat we all share in common. To cut the noise and focus on signal we will have hard fast rules and facilitate security, privacy settings, and creating folders, making TG work for you.

SERIOUS VETTED PASSIVE PROGRAMS Using the established PIP passive income model we will curate, structure and organise the best of the best. You will learn how to undertake due diligence and manage your own risk with radical responsibility without the hype or fud. Dedicated help to support you in learning how to differentiate different opportunities and create group thinking to determine sensible stability of a platform.

WHAT TO EXPECT

FINSOV PATHWAY Underpinning the direction of the group is the FinSov pathway. No Matter where you are on it, the community aim is for each member to be helped to grow into a more FInancial Sovereign human. To THRIVE.

SOVEREIGN FINANCE COURSE Membership lifetime access to our 9 module pathway on the hows and whys of financial sovereignty with a focus on crypto, privacy and security

TRACKING TRACKING TRACKING We treasure what we measure. Full open access to all Daniel and Richard tracking and monitoring documents and resources. You'll receive help and support specifically on tracking where we can all make, improve and fix tracking documents so you can break any fear of numbers of spreadsheets you have and increase your own trust and ability to use these tools to successfully monitor your own investments.

SENSE MAKING Daniel and Richard came together from a place of wanting to understand the world and make personal life altering decisions despite fear, uncertainty, doubt, conditioning and bias. Emotional intelligence requires reasoning and the development of intuition. Sense making is a skill we need to learn to stay Sovereign with Soul and we will guide you to it.

RADICAL RESPONSIBILITY Transparency and Integrity seem to be lacking from so many communities. It's one of the reasons why SSN has been born. It's easy and comfortable to hide ownership of errors or mistakes. Or not having the difficult conversation with a group for fear of how it is received. Communities are hard. Both online and offline. But they are a natural part of the evolution for humans through millennia.

As a group where we all have skin in the game, clear boundaries of effective discourse with each other is promoted, dealing with issues in a sensible manner. When one person grows, we all grow, while we all take radical responsibility for our actions and sovereignty.

OVERWHELM Can there be too much value? Yes and No. We want to deliver all the same things we all love and want. Sovereignty is at our core, so please do NOT feel you have to partake in all things. Everything is recorded. Communities should be bustling places, but you don't need to be and can't be in all places all the time. Enjoy being a part and focus on what you need the most first

ROADMAP

PHASE 1 - TOWN HALL

Three aims make phase 1 a success.

The first is 30 community members joining in March so we can begin circa April with our first founding members.

The second is a focus on the financial aspect of sovereignty. It is likely most the first members will be connected through crypto and finance so this is the first delivery we want to accomplish.

The third is rhythm. Rhythm is the beating drum that allows any community to know what it happening, when, where and who, so they can make informed choices. It allows us to work out what is value and works and what doesn't.

PHASE 2 - LIFESTYLE

Sovereignty doesn't stop at Finance. A Sovereign Soul is is an integral Self. Meaning that all aspects of sovereignty are spoken about. Health, mindset, relationships, sense making. Phase 1 focuses on the financial aspect. Phase 2 brings in a more wholesome view of yourSelf.

All sessions are optional. Some people feel the need to be on EVERY call. This can be stressful if there are a few calls a month. It's important that you feel Sovereign to even choose what YOU need right now.

Maybe you only need to work on your financial aspect to begin with, this is fine, however we want to begin to address the wider aspect of being alive as we enter phase 2. Remember, we are alive.

PHASE 3 - RECREATION

Getting to know people in an online space is special, you get to feel connected to people all over the world. Well this magic only expands when we can meet in person.

In phase 3, we would love to facilitate physical meetups, renting a villa in some part of the world and spending time together. Magic happens naturally when people just come together, couple this with a few expert talks, some workshops, skill sharing from other members, a few BBQ's...and a pool... and we've got a winning recipe.

GIVING: DRIVE *Not specific to any one phase in particular, but something that is key and underpins SSN as a whole. We want to DRIVE real, deliverable, community curated projects that give back to power to places, people, businesses, in need or creating impact. Many of us already give, and we've had many a dinner table discussion of doing this better. Pooling funds, sharing projects that are REAL that we HAVE TOUCHED. So we can ease the burden on finding these real potentials to create an impact and collectively contribute to them, removing the responsibility of a single person doing it and increasing the reach we have as a community.*

We appreciate that some of you will know both of us well and some maybe one of us or possibly neither. If you find it useful, here's a short bio.

DANIEL HALENKO

All the usual blah blah of running businesses, investing, crypto and with plenty battle scars along the way, a TEDx speaker and international best seller. But that doesn't tell you who I am?

Lifelong learner and unquenchable thirst of curiosity asking WHY for many things.

Since selling my business in 2018 I have found my fulfilment working between finance, technology and consciousness. I love tax (don't hold it against me) and left the UK in 2020 to live in more favourable countries and feel free.

One of my greatest gifts is clear communication, I use analogies to convey complex ideas in simple ways, just as pulley system makes heavy weights easy to lift.

I love the balance between the tech of crypto and the real humanness it brings with it of the people you meet. Community is a big part of what lights me up.

RICHARD FLANAGAN

I haven't been gainfully employed since I began as an entrepreneur and investor at 18. Built businesses in manufacturing, tech and property and created an award winning education programme and book.

I always looked at life as something to experience and not endure and all my decisions reflect that.

Illness caught me off guard and after two years in and out of hospital my life was upended in ways I didn't think possible. On the other side I embarked on what I call my Life 2.0, embracing health, wealth, growth in new ways with new people as I unlearn across the world with my family.

I'm obsessed with turning information into action. I'm able to understand the big picture to distill big problems into creative solutions, for the benefit of those who need it most.

I am as fascinated with the new as I am frustrated with the old and love building things to bring awareness and opportunity to good people.

SOVEREIGN
SOUL

NEXT STEPS

YES I'D LOVE TO BE A MEMBER

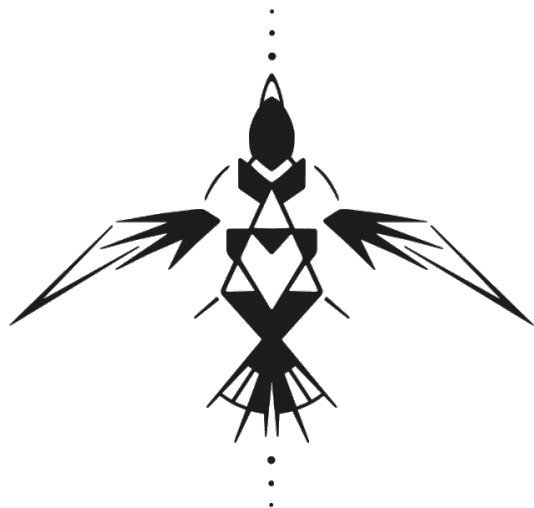

I really love what you are creating here, I can't really find this in the groups I am in and I'd love to be able to connect with other like minded souls around the world.

I'D LOVE A CHAT FIRST PLEASE

I connected with the essence of this prospectus however something is not clear and I want to check something personally beforehand if that's cool?

PLEASE COMPLETE THIS FORM

THE CROW

**SOVEREIGN
SOUL**

Sovereign Soul Network is a community helping members lead more independent and meaningful lives, together.

It is a new model for a community, defining how Sovereignty sets us apart but binds us together in world that wants to divide us in every way.

The crow was chosen as it symbolises the ability to see and think and adapt from a higher perspective.

It is said to denote intelligence, observation and intuition, signifying wisdom and urges you to be determined on goals and to stay fearless.

When in alignment its natural course is true north.

The heart at the centre is the deep connection at the core of the community.
